About Cookie Jar's Online Styleguide Center

Cookie Jar's online styleguide service using Mediabox software provides you with the ability to search, preview and download high-resolution art, logos, photography and other media files for the properties you have acquired. The instructions below provide helpful tips on how the service can be used.

♦ **The Cookie Jar Company's Mediabox**: **http://cookiejar.mymediabox.com**
♦ Please fill in all information fields when completing the online registration form.
♦ Your user name and password will be provided to you in a separate email following your registration for access.
♦ **Need help?** Please email Mediabox Customer Support at **help@mymediabox.com**. You may also contact **Jennifer McGowan** at **jmcgowan@thecookiejarcompany.com** for any problems with the registration process.
♦ **Forgot Password?** If you have forgotten your password, click on the "Forgot Password" link on the main log-in page and follow the instructions to receive a new password.

Navigating the Cookie Jar Online Styleguide Center

When you initially log into the website, you will see links to the properties to which you have been granted access.
♦ Click on the folder title graphic to go to the main page for that folder.
♦ Digital files are organized into folder trees which you can click on to reveal additional sub-folders.
♦ From the thumbnail/list view, you can then download files or click on the thumbnail image to show an enlarged version of the thumbnail. Files that do not display a thumbnail image can still be downloaded – the thumbnail image might not appear due to a system error and if this occurs then please reference the property's style guide to preview the art.

Downloading Files

If you have been granted "Download" rights, then you will see a "Download Now" and "Add to List" button next to each file's thumbnail – or below the file in the larger detail view. There are two ways to download files:

1. **Downloading a single file using the "Download Now" button**

The "**Download Now**" option will allow to immediately download the selected file directly to your desktop computer. When clicking on the "**Download Now**" button, a "**File Download**" prompt will appear with the following options:
♦ **OPEN** – opens the file in the appropriate program without saving directly to your computer
♦ **SAVE** – saves the file directly to your computer to the folder of your choice
♦ **CANCEL** – cancels the download order

2. **Downloading multiple files using the "Add to List" button**

The "**Add to List**" option allows you to place one or more files into a 'shopping cart' (see the upper right corner of your browser window) so you do not have to download each file individually.
♦ The option to "**Add to List**" will always be next to the "**Download Now**" button.
♦ To add all of the items on a page to your list, click the checkbox next to the "**Add Selected**" box then click "**Add Selected**" to put all of those items into your cart.
♦ If at any time you want to see what items you have added to your cart, click on the "**View Lists**" button in the upper right corner of your web browser.
♦ When you are done adding files, then click the "**Check Out**" button in the upper right corner of your web browser.
♦ When you have completed your order, you will receive an email with a link to a zipped file containing the digital files you ordered – ***this link will be active for seven (7) days from the day you placed the order***.
